OPERATIONS MANAGEMENT | PROJECT MANAGEMENT | PERFORMANCE MANAGEMENT | COMPUTER SCIENCE

Operations Management Professional and Military Veteran with a Top-Secret SCI Security Clearance leveraging over 9 years as a proven leader and manager. Career supported by operational experience, certifications, and a Bachelor of Science in Economics from the United States Military Academy, West Point, NY. Ongoing Associates in Computer Science. Enrollment in MS in CS upcoming fall.

COMPUTER SCIENCE EXPERIENCE

During final year in the military, I proactively pursued college courses to attain a secondary Bachelor's degree in Computer Science (ongoing). Simultaneously harnessed available resources to excel as a Salesforce Platform Developer and Administrator, while also honing my skills as an AWS cloud practitioner. Furthermore, I initiated the development of an application designed to support military servicemembers and families. Leveraging Java and JavaScript frameworks in conjunction with AWS technologies, I've embarked on this project to deliver innovative solutions to our community.
